

## Transparency Pricing Methodology HB 2045

Direct Pay Charge is our listed charge less 25%, which is the same as our Cash Pay Charge.

As required by HB 2045, on 12/31/2013 we published to our website the average charge of our 50 most often charged DRG procedures using 11 months (Jan-Nov) of data from 2013, and we published our 50 most often charged CPT procedures using 11 months (Jan-Nov) of data from 2013.

This data is to be updated annually - our next update is 12/31/2014.

Prior to HB 2045, we published a cross-section of DRG and CPT average procedure charges, from 2012 data, along with our uninsured, private-pay discounts.

Attached is the .pdf for both of these versions.
