

AskMayoExpert Quick Reference Guide

What is It?

AskMayoExpert (AME) is a best practice resource. Created and used by Mayo Clinic medical professionals, it contains the latest Mayo Clinic-vetted, point-of-care information that provides quick insight on disease management, care guidelines, treatment recommendations and reference materials. All Summit Healthcare clinical staff, including allied health professionals, have access to this resource.

Using AME

- ▶ If on campus, AME can be accessed through Mayo Clinic Care Network on Summit Healthcare's intranet page.
- ▶ Summit Healthcare physicians who are off campus users can access AME in their office by using the link below; however, Mayo Clinic Care Network login credentials are required.
<https://askmayoexpert.mayoclinic.org/>
- ▶ Quick access to AME is available through Summit Healthcare's intranet, which is available for the iPhone and Android. If accessing from off campus, entry of login credentials is required.

*For more information about your Summit Healthcare Network login credentials please contact Julie Stoner at 928.537.6399.

- ▶ Click on the AME link provided in each of the locations above, enter Summit Healthcare Network login credentials if prompted, and research the clinical topic of your choice.
 - Type the condition or treatment in the search box.
 - AME utilizes Google© search functionality and will provide a list of topics that best match your query.
 - A preview of options will be listed in black font under each topic (e.g. Description, Diagnosis, Treatment, Complications).
 - Hover the cursor over the topic for more options.
